

Head of Laboratory for Development of New Approach Methods (NAM) in Toxicology (m/f/d)

Our Bioscience Research Division works on innovative and sustainable solutions for our customers in sectors, such as the agricultural sector or food industry. Our goal is to improve the quality of life and protect the environment through bioscience. Our creative and diverse team embodies mutual respect and develops market-driven innovations, which make our customers successful.

LOCATION
Ludwigshafen, DE

COMPANY
BASF SE

WORKING HOURS
Full-time

CONTRACT TYPE
Permanent

WORKING AREA
Toxicology / Product Safety

REFERENCE CODE
EN59950223_ONLE_1

RESPONSIBILITIES

- BASF's Experimental Toxicology and Ecology is supporting BASF business units worldwide to successfully develop and register sustainable products. We develop and use new, better toxicological methods to ensure safe and sustainable products.
- o As the head of laboratory, you take responsibility in the field of development of new approach methods (NAM).
 - o You develop and validate in vitro methods that can replace animal studies.
 - o Besides, you are responsible for a team of technicians and coordinate internal laboratory capacity issues.
 - o Furthermore, you implement as well as use NAM in routine testing, and you participate in multifunctional project teams.

BENEFITS

- o Onboarding to help you settle in quickly, ensuring you are part of the BASF team from day one.
- o A secure work environment because your health, safety and wellbeing is always our top priority.
- o Your contribution to a sustainable future because sustainability lies at the heart of everything we do and is a driver of growth.
- o Contribute to the success of alternative methods to replace animal methods.
