

spectra is a young and independent consulting company for the chemical and biocidal industry. Our client base ranges from small and medium-sized enterprises (SMEs) to global players. We are the 360° project partner for developing integrated and tailored-to-needs strategies for the authorisation of biocidal active substances and products in the European Union.

To support our team, spectra is looking for a

Assistant Manager Regulatory Affairs Biocides – Natural scientist (m/f/d)

full-time or part-time, permanent contract
in Bad Kreuznach or home-based

Role & Responsibility

- Active participation in regulatory projects on European level
- Support in preparation and defence of biocidal active substance and product dossiers
- Characterisation of biocidal active substances and products with respect to identity, analytical and physical-chemical properties, efficacy as well as (eco)toxicological properties
- Data and information management
- Performance of exposure and risk assessments
- Development of integrated testing strategies, study planning and monitoring in close contact with clients and CROs

We are looking for a colleague who takes on the new role as a challenge and will continuously grow with the job.

Personality & Qualifications

- University degree (M.Sc., preferably PhD) in life science such as (micro)biology, (food)chemistry, pharmacy, (eco)toxicology, geography, or related scientific discipline
- Strong scientific background combined with the ability to think out of the box
- Fluent in English and German with excellent communication and presentation skills
- Positive, self-motivated and well-organised team-player
- Hands-on personality with a strong work ethic and sense of responsibility

We are looking for a colleague with ample life experience for whom the job is not just a job.

spectra offers

- Cooperative and appreciative working environment
- Intensive training on the job with involvement in the projects from day one
- Possibility to grow in a dynamic team with broad scientific expertise
- Full-time or part-time, permanent contract
- Flexible working hours, possibility to work home-based (with occasional physical team meetings)
- Further training and networking opportunities
- Competitive salary with profit sharing and extra benefits

With spectra both is possible: working in a small, collegial environment and being at the pulse of exciting international projects.

We are looking forward to receiving your application. Feel invited to call us in advance. Please address your questions and documents to
