

To support our team in Mertert/Luxembourg, we are hiring a

Regulatory Affairs Advisor – Toxicology (full-time)

We at **CHEMSERVICE** support our clients in the review, implementation and observation of national and international chemical regulations. Due to our flat hierarchies, our efficient work processes and the ability to react quickly and flexibly to requests, Chemservice has developed into one of the leading global consultancies to the chemical industry and its value chain over the past 15 years. We are committed to the professional and personal development of all our 70 employees located in Europe, South Korea and the United States. We are constantly developing ourselves in order to continue to provide our clients with the best possible advice and give them a competitive edge.

Your tasks:

- Assessment of toxicological properties of industrial chemicals as well as biocidal active substances and products to evaluate their hazards.
- Supporting dossier preparation for industrial chemicals and/or biocidal active substances and products to obtain international registrations/approvals/authorisations.
- Communicating with our international customers, the authorities, and laboratories.
- Managing your projects self-dependently.
- Developing creative problem-solving strategies.
- Challenging existing processes and developing conceptual changes and improvements in the team.

Your profile:

- Ideally, you have an academic degree in natural sciences related to toxicology (e.g. biology, (food) chemistry, toxicology, pharmacy) or relevant professional experience in the chemical industry.
- You have very good communication and presentation skills in English and German.
- You are skilled in interdisciplinary and solution-oriented thinking.
- You work in a self-dependent, reliable, and structured way and can handle tight deadlines.
- You are interested in new and ever-changing challenges.
- You are willing to familiarise with national and international legal requirements.

We offer you:

- Becoming part of a dedicated toxicology team with a high level of expertise.
- Interesting tasks in an international business environment.
- A full-time, permanent contract with flexible working hours and a competitive salary.
- Professional training and enough time to familiarise with new areas of responsibility.
- The opportunity to actively develop Chemservice.
