

Experienced Regulatory Toxicology Expert (m/f/d)

RIFCON GmbH was founded in 2000 to make an important contribution to consumer, environmental and nature protection. More than 200 employees work in the areas agrosociences, environmental planning and sustainability. In the field of agrosociences we are offering comprehensive professional services for the registration of synthetic and biological plant protection and EU fertilising products (e.g. biostimulants, fertilizers, inhibitors etc.). This ranges from complete EU registration packages, general consultancy work to sophisticated GLP field studies and various combinations of these elements.

Our employees work either at our headquarter in Hirschberg, very close to the beautiful city of Heidelberg, at our offices in Ludwigshafen or from home.

For our Toxicology team located in Hirschberg / Germany we are looking for an experienced regulatory toxicologist expert (m/f/d).

These tasks are waiting for you

As part of our growing team of toxicologists, the candidate will be involved in various aspects of registration and evaluation activities of products and active ingredients.:

- Monitoring of toxicological GLP studies including the preparation and assessment of study plans and protocols
- Evaluation of existing toxicological studies, data gap analysis
- Development of registration strategies and higher tier approaches
- Interdisciplinary work on the human and environmental safety requirements, e.g. collaboration with our ecotox and effect modelling teams to link your expertise in toxicology to the ecological risk assessment of vertebrates
- Evaluation of authority requests and commenting
- Strategic consultancy / project management
- Applying models to assess the exposure to humans
- Compilation of expert statements
- Representing RIFCON in scientific expert groups and associations (e.g. ECETOC).
- Communication with clients and regulatory authorities
- Classification and Labelling (CLP)
- Compilation of registration dossiers (global with focus on EU)

You convince us with

- University degree in toxicology
- Professional experience in regulatory toxicology is a must (e.g. consultancy, CRO, industry, authority)
- Started or successfully completed further training as a specialist toxicologist (European Registered Toxicologist ERT) is desirable
- Knowledge of regulatory processes and related guidelines for chemicals in the EU would be an asset (REACH, Plant Protection, Biocides)
- Experience in in the following fields is advantageous:
 - in-silico/QSAR methods
 - ED assessment
 - Metabolism and kinetics
- Very good level of written and spoken English, other language skills are advantageous
- Self-motivated
- Excellent communication and team player skills

We offer you

- An attractive working environment including indefinite contract and multifaceted tasks
- To work as part of a dedicated international team of scientists and staff
- Possibility of professional development and occupational education
- An option to widen your personal network in the area of industry, science and regulatory authorities
- High degree of project and self-responsibility
- Employer-funded pension
- Friendly and family working atmosphere
- Home office and mobile work opportunities
- Flexible working hours and part time models
- Job ticket, employee parking spaces, JobRad (Company bike leasing)
- Employer childcare allowance
- Individual ergonomic advices, Yoga and sports
- Team events
